ABOUT MORPHO

Climbing is foremost a sport of aesthetics. It is about the beauty of movement, coupled with the exquisite designs of the great outdoors. It is also a sport of imagination.

This is the foundation for Morpho Climbing Holds, established in 2014 by **Jure Bobnar** and **Rok Brezar**. Though the company is still very young, our shaping and molding endeavors actually started many years before that. What initially pulled us in was the satisfaction of creating something new, soon joined by our pride in mastering and improving the technology involved. This is still what this enterprise is about – creating intelligently crafted products, taking the game ever further.

Constantly developing new designs, concepts and technological upgrades, **Morpho** is one of the leading companies in the field. Our holds and volumes are regularly used at world cups and other prominent competitions. You can find them in climbing gyms across the globe, from Australia and Japan to Mexico and Canada.

All holds and volumes are produced in Slovenia. Our manufacturing procedures meet the EN 12572-3 European safety standards. All Morpho products boast a superior technological edge, attractive design, and the overall quality to match.

VOLUMES

ABOUT

We offer over 130 different types of volumes and present a wide variety of shapes, sizes, designs and functionalities. All of our volumes are **made of glass reinforced polyester**. They are light yet amazingly durable, with standout texture for optimal friction. Our designs enable divergent, imaginative and dynamic routesetting and climbing.

COLORS

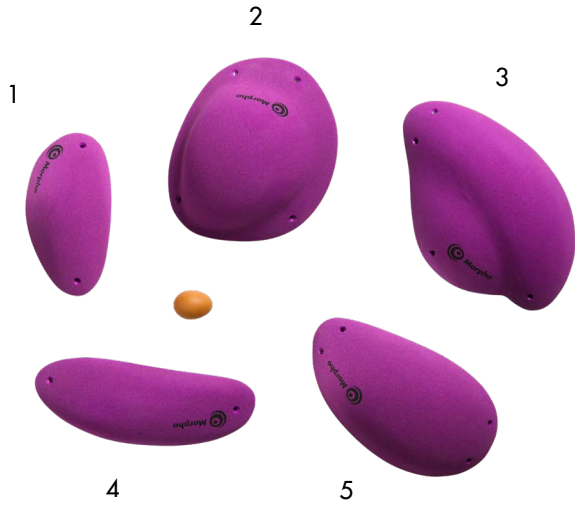

Our volumes usually come in 11 standard and in 4 fluorescent colors. Furthermore, upon request we offer custom colored volumes following all RAL and NCS references. Keep in mind that fluorescent colors are less resistant to UV radiation and are not advised for prolonged outdoors usage. However, standard colors can be freely used outside.

- Blue - RAL 5015
- Red - RAL 3020
- Yellow - RAL 1021
- Violet - RAL 4008
- Green - RAL 6037
- Orange - RAL 2004
- Pink - RAL 4010
- Dark blue - RAL 5002
- Grey - RAL 7032
- Black
- White
- Fluorescent green
- Fluorescent pink
- Fluorescent yellow
- Fluorescent orange

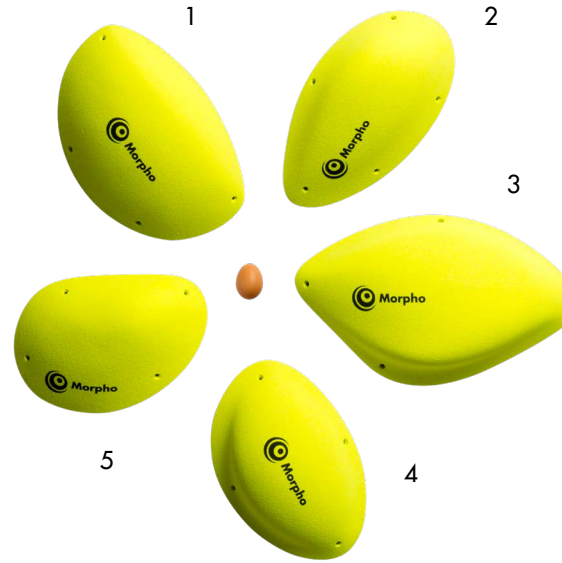

FIXING

For attaching our volumes to climbing surfaces, we recommend using 4,5 mm self-tapping flathead wood screws. For bolt-on volumes, we recommend socket head cap M10 bolts of appropriate length.

HOLDS

ABOUT

All our holds are made out of a mixture of polyester resin, color pigments and fillers. Our polyester resin formula is a highly refined technological concept, **providing the best combination of surface texture feel, surface wear resistance and color resilience**. Our hold designs enable fun and complex training, allowing the routesetters to create an infinite set of challenges and puzzles.

COLORS

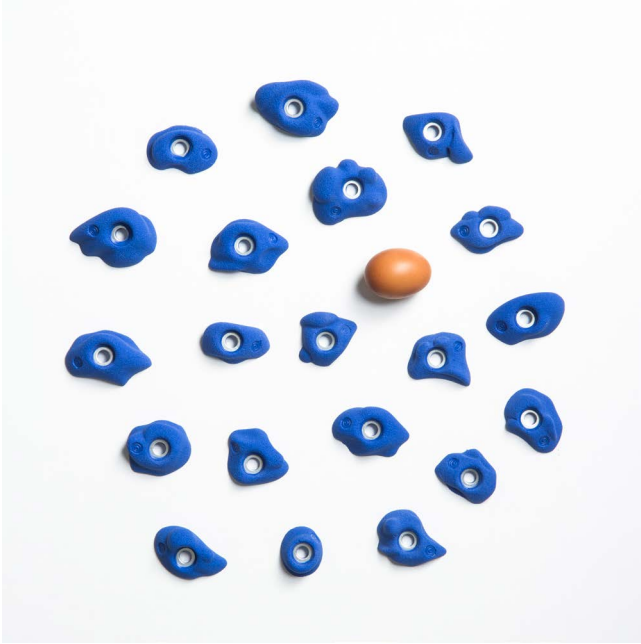

Our holds come in 11 standard and in 4 fluorescent colors. Keep in mind that fluorescent colors are less resistant to UV radiation and are not advised for prolonged outdoors usage. However, standard colors can be freely used outside.

- Blue - RAL 5015 • Red - RAL 3020 • Yellow - RAL 1021 • Violet - RAL 4008 • Green - RAL 6037 • Orange - RAL 2004 • Pink - RAL 4010
 - Dark blue - RAL 5002 • Grey - RAL 7032 • Black • White • Fluorescent green • Fluorescent pink • Fluorescent yellow • Fluorescent orange
-

FIXING

For attaching our holds to climbing surfaces, we recommend using countersunk or socket head cap M10 bolts. For screw-on holds, we recommend 4,5 mm self-tapping flathead wood screw.
